OLD MARKET SQUARE

FLUX BY KSAWERY KOMPUTERY 6PM–11:55PM

Meeting friends over web cameras feels almost like sitting in the same room. The signal that gathers us at this virtual table, and vast amounts of data transmitted to space and back, seems imperceptible. With a tubular shape rising to the clouds, four high-speed cameras and an eight-speaker sound system FLUX has built an immersive experience which reveals hidden algorithms that shape our online encounters at the speed of light.
